

BARRON AREA SCHOOL DISTRICT

B.A.Y Fund

Building Assets in Youth (for financial assistance)

A fund has been established for students who have a variety of needs that may require financial assistance. The fund could cover financial needs such as shoes, clothing, tutor payments, school supplies, field trips, milk money, etc.

After the 1996 crash that killed four Barron High School students, this fund was established to help students achieve success by becoming active in school sponsored events and activities. Since then, various donors have contributed to this fund. Recently, Bell Pole Inc. contributed a substantial amount of money to help this cause.

If you have a student who you know has some financial needs, complete the bottom of this page and return it to Linda Mikunda at Barron High School. The request will be read by a committee and if appropriate, will be approved. All requests must get approval prior to the activity. Upon approval, staff member will be reimbursed or payment will be made to appropriate account. Once the request is approved, attach a receipt to an activity account form which is found on the website under "staff " and then choose district forms.

To accommodate the needs of many students, please try not to exceed \$50.00.
