

BARRON COUNTY DEPARTMENT OF HEALTH & HUMAN SERVICES

Dear Parents or Guardians,

Barron County Public Health recognizes that the best way to prevent influenza or “the flu” is to be vaccinated. This school year Barron County Public Health will vaccinate Barron County youth, at NO COST to families. Public Health will be offering a flu vaccine clinic at Barron Area Schools on **Wednesday, November 9th** for students at Woodland and the High School. The clinic will start at the High School and then go to Woodland.

Attached is the vaccine information sheet (VIS) for the injectable (shot) vaccine and a consent form. Public Health will not be offering the flu nasal spray.

If you choose to have your child vaccinated, please read through the VIS, complete the consent form for your child, and return the consent form to your child’s school office. **Please complete a separate consent form for each student who will receive the vaccine.** Consent forms are due back to your child’s school office by Friday, November 4th. **If you do not want your child to receive the influenza vaccine, do not return the form.**

The CDC recommends that all individuals age 6 months and older receive the influenza vaccine. Because school settings are places where many things are “shared”, including illness, all students and staff are felt to be at risk for becoming ill with influenza.

Covid vaccine will not be available for students at the school flu clinics. If you choose to have your child vaccinated for covid, vaccine is available at Public Health on Friday’s between the hours of 8 am – 12 pm and 1 pm – 4 pm or search www.vaccines.gov to find other locations that have vaccine available.

If you have any questions regarding the school flu clinics or the flu vaccine, please call the Barron County Public Health Department at 715-537-5691 ext. 6442. Thank you for keeping the health of your children and others a priority.

Sincerely,

Laura Sauve, RN, BSN
Barron County Health Officer
