When the football team met for the first practice, prospects were not very bright as eighteen lettermen had been lost from the 1963 team. The team, though young and inexperienced, recognized the importance of team work and spirit. The development of these characteristics was especially evident in the Ladysmith and Cumberland games. The team very nearly upset the conference champions before losing 18-13 in the final minutes. The Bears best game of the season and perhaps many years was the upset of the very strong Cumberland team 20-12. The seniors have given the underclassmen a fine example of leadership and cooperation. It is hoped that the fine attitude developed by these boys will be continued by future teams.

# 1965 Heart O' North

HAIL THE CHAMPIONS--Our team brought the first Heart O' North football championship to our school. It is fitting that our first championship team won all its games, and finished the season undefeated. They were accorded further honor by being selected the small school state champions.

Championship seasons don't just happen, they result from the possession of certain abilities combined with hard work and guided in the right direction with a positive attitude. The mark of the 1965 team was its attitude of we won't be beaten, best exemplified by the two goal line stands in the Rice Lake game.

Barron football teams traditionally look to their seniors for leadership. The five seniors not only followed the fine example of last year but have left very large shoes to be filled next season.
