1999 Golden Bears Football Coach's Comments

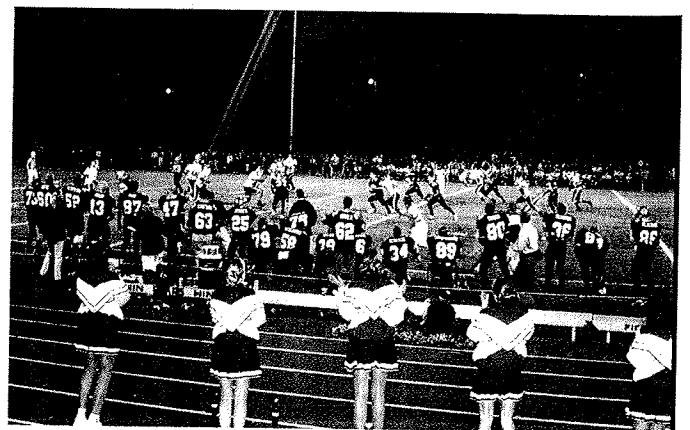

1999 was one of my most enjoyable and satisfying seasons as the head football coach at BHS! We were a young team with very few returning starters and lettermen. We had only six seniors on our team, and all six were tremendous leaders, hard workers, and excellent football players. It was their outstanding effort, discipline, hard work, desire, positive attitudes, and team work that helped lead us to one of Barron's most successful seasons in school history. Expectations were very low for the coming season, but our team reached its highest potential. We triumphed over two "power-house" football teams in the H.O.N. to win the championship. Our team defeated both teams in grand style and overcame many injuries to some key players to achieve great team success in 1999. Winning over the favorite team, Amery, was a big highlight for our team. We were the fifth team in school history to reach the WIAA playoffs and the third team in school history to reach level two of the playoffs. We should expect great things for the 2000 football team. Many experienced players are expected to return. I am hoping they can continue their great leadership, positive attitude, work ethic, and continue our success in the 2000 season. It was a great season with many fond memories. This was an excellent group of seniors who did the best they could do for our football program in 1999. Thank you seniors!
