Roubal with the tackle

"The 2005 Barron Golden Bears football season was a very difficult one. There were only six seniors on the 2005 roster this season. A season ending injury for our senior captain, Dustin Mertins, made the job even tougher. Other injuries among the players made our team young and inexperienced, against the strongest HON football conference I have seen for quite a while. But I was proud of the overall team effort. The coaches and players had a great attitude and worked hard to meet all of the adversity that our program faced this season. The road to the top is paved with "Hard Work" for all of the coaches and players in 2006."
